DETAILED ACTION

Election/Restrictions

- 1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-26, 46-71 and 91-99, drawn to a method and apparatus for estimating a reverse link maximum data rate, classified in class 375, subclass 225.
 - II. Claims 27, 28, 72, and 73, drawn to a method and apparatus for detecting an outage, wherein an outage occurs when the power required for transmission of data exceeds power required for transmission of data determined from a quality metric, classified in class 714, subclass 798.
 - III. Claims 29-45, 74-90, and 100-108, drawn to a method and apparatus for estimating power required for the transmission of data, classified in class 455, subclass 127.1.
- 2. The inventions are distinct, each from the other because of the following reasons:

 Group I refers to a method and apparatus for estimating a reverse link maximum data rate; Group II refers to a method and apparatus for detecting an outage, wherein an outage occurs wherein the power required for transmission of a reference signal exceeds power required for transmission of the reference signal determined from a quality metric; and Group III refers to a method and apparatus for estimating power required for transmission of data.

Conclusion

3. Any inquiry concerning this communication or earlier communications from the

examiner should be directed to Curtis B. Odom whose telephone number is 703-305-4097. The

examiner can normally be reached on Monday- Friday, 8-5.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's

supervisor, Stephen Chin can be reached on 703-305-4714. The fax phone numbers for the

organization where this application or proceeding is assigned are 709-872-9306 for regular

communications and 703-872-9306 for After Final communications.

Any inquiry of a general nature or relating to the status of this application or proceeding

should be directed to the receptionist whose telephone number is 703-305-3900.

Curtis Odom
